

Certified Cybersecurity Technician

Exam Blueprint

Domain	Subdomain	No. of Theory Questions	No. of Practical Questions	Total Questions	Total Marks	Weightage
1. Information Security Threats and Attacks	1.1 Information Security Threats and Vulnerabilities	2	1	7	11	11%
	1.2 Information Security Attacks	4				
2. Network Security	2.1 Network Security Fundamentals	1	1	3	7	7%
	2.2 Identification, Authentication, and Authorization	1				
3. Network Security Controls	3.1 Network Security Controls - Administrative Controls	2	2	15	23	23%
	3.2 Network Security Controls - Physical Controls	2				
	3.3 Network Security Controls - Technical Controls	6				
	3.4 Network Security Assessment Techniques and Tools	3				

4. Application Security and Cloud Computing	4.1 Application Security	2	1	5	9	9%
	4.2 Virtualization and Cloud Computing	2				
5. Wireless Device Security	5.1 Wireless Network Security	2	1	7	11	11%
	5.2 Mobile Device Security	2				
	5.3 IoT and OT Security	2				
6. Data Security	6.1 Cryptography	2	1	6	10	10%
	6.2 Data Security	3				
7. Network Monitoring and Analysis	7.1 Network Troubleshooting	2	2	8	16	16%
	7.2 Network Traffic Monitoring	2				
	7.3 Network Logs Monitoring and Analysis	2				
8. Incident and Risk Management	8.1 Incident Response	2	1	9	13	13%
	8.2 Computer Forensics	4				
	8.3 Business Continuity and Disaster Recovery	1				
	8.4 Risk Management	1
